

SyntaxElementParser

```
graph BT; SEIReader[SEIReader] --> SyntaxElementParser[SyntaxElementParser];
```

A UML class diagram showing an inheritance relationship. The class 'SyntaxElementParser' is represented by a white rectangle with a black border at the top. The class 'SEIReader' is represented by a gray rectangle with a black border at the bottom. A solid blue arrow points from the 'SEIReader' box up to the 'SyntaxElementParser' box, indicating that 'SEIReader' inherits from 'SyntaxElementParser'.

SEIReader
